About ECART

The Ethics Committee on Assisted Reproductive Technology (ECART) is the ethics committee for the purposes of the Human Assisted Reproductive Technology Act 2004 ([the HART Act](#)), which aims to secure the benefits of these technologies by promoting and protecting the health, safety, dignity and rights of those involved in them.

Under the HART Act, ECART's prior approval is required in order to conduct:

- human reproductive research (that is, research that involves the creation or use of human gametes, human embryos or hybrid embryos)
- assisted reproductive procedures, except those that have been declared to be 'established procedures'.

ECART reviews applications for human reproductive research and assisted reproductive procedures in accordance with guidelines issued by the Advisory Committee on Assisted Reproductive Technology (ACART).

Purpose of this report

ECART's [Terms of Reference](#) require it to report annually to the Minister of Health.

This report must include information on ECART's membership, a summary of the applications reviewed during the year, details of any complaints received (and how they were resolved), and areas of review that caused difficulty in making decisions. The report should also detail the number and type of applications for assisted reproductive procedures and human reproductive research, the date of first review, the final outcome, and the reason for the deferring or declining of any applications.

Chairperson's report

I am pleased to present the 15th Annual Report of the Ethics Committee on Assisted Reproductive Technology (ECART), for the year ending 30 June 2020.

Applications

In 2019/2020, ECART reviewed 64 applications over seven meetings; compared with the 2018/2019 year when ECART reviewed 49 applications over six meetings. ECART also reviewed 155 applications to extend the storage period of gametes and embryos beyond their original 10-year limit.

ACART guidelines

No guidelines were published in 2019/20.

Additional function

Following a request from fertility clinics to be able to approach ECART for informal advice on established procedures, ECART wrote to the Minister of Health asking for this function to be assigned pursuant to section 28(1)(e) of the HART Act. The Minister agreed to assign this function to ECART, and asked for details of such advice to be included in future Annual Reports; these details can be found on page 15 of this report.

Committee members

I wish to record my gratitude and thanks to all the committee members for their continuing commitment to ECART, without which the committee could not function effectively. I would particularly like to thank Angela Ballantyne who completed her time on ECART this year.

Iris Reuvecamp
Chairperson

Membership and attendance

Membership

Lay members

Ms Iris Reuvecamp (Chair)

Membership category: expertise in the law

Date of first appointment: August 2015

Current term expires: 22 December 2021

Iris is a barrister and solicitor, and has many years of experience specialising in health and disability law in both the United Kingdom and New Zealand. Iris has worked as in-house counsel and as an external adviser for a wide range of health and disability sector clients. Iris currently practises as a sole practitioner at Vida Law.

Iris' practice includes advising on administrative and public law issues; civil litigation and judicial review processes; complaints, inquiries, investigations and inquests; corporate and clinical governance (including conflicts of interest and legal compliance); health sector policy; privacy law; health sector procurement and contracting; health sector employment; mental health; personal welfare and protection of personal and property rights; personal injury, treatment injury and accident compensation; and professional regulation.

Iris has a Bachelor of Law (Honours) and a Bachelor of Arts majoring in Psychology and Criminology from Victoria University of Wellington (1998), and a Masters in Bioethics and Health Law (Distinction) from the University of Otago (2012). She is a member of the Institute of Directors (2014) and an associate member of the Arbitrators' and Mediators' Institute of New Zealand (2016). She is currently undertaking a Master of Laws at the University of Auckland specialising in human rights.

Ms Judith Charlton

Membership category: expertise in disability perspective

Date of first appointment: 7 July 2016

Current term expires: 22 December 2022

Jude was born with a physical disability, and has always been a fighter for disability rights, particularly in relation to access, education, and employment.

Jude gained a degree in Sociology and Education, as an adult student at Canterbury University. Since then, she has worked in disability support on campus at CPIT and Lincoln University. During her time on campus, Jude travelled overseas, on a Churchill Fellowship, meeting disabled students, and disability support staff.

Her background also includes working as an educator for the Human Rights Commission, and an advocate in the disability sector.

Jude has also enjoyed working as a volunteer teaching English to Refugees and Migrants, and was a founding member of the Disabled Persons Assembly.

She is currently enjoying semi-retirement and spending time with her grandchildren, while working part time for CCS Disability Action, giving disability awareness presentations to schools and the wider community.

Ms Michèle Stanton

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 7 July 2016

Current term expires: 25 February 2022

Michele is a solicitor with a particular interest in medico-legal and employment law in the health sector.

As a Director of Health Professional Legal Services Limited, Michele acts as legal counsel for health professionals on behalf of insurer New Zealand Medical Professionals Ltd.

Michele's work also includes legal and advocacy advice from the NZ Resident Doctors Association, NZ Medical Laboratory Workers Union and APEX.

Michele is a member of the Auckland District Law Society Health & Disability Law Committee, and a Board member of the Academic Quality Agency for New Zealand Universities.

Michele has served on the Physiotherapy Board of New Zealand, under the Health Practitioners Competence Assurance Act 2003 and is a former member of the UNITEC Research Ethics Committee, and a former lawyer member of Northern X, and Northern A Health and Disability Ethics Committees.

Michele has a Diploma in Business Studies from Massey University (1998), and Bachelor of English from the University of Canterbury (1981) a Bachelor of Laws from the University of Canterbury (1984), and a Graduate Diploma in Law from the University of Auckland (1988).

Michele's background includes advocacy, research ethics, occupational regulation and quality assurance in the financial services, education and health sectors.

Mrs Mania Maniapoto-Ngaia

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 5 September 2019

Current term expires: 22 December 2022

Mōkau ki runga, Tāmaki ki raro,
Pare Hauraki, Pare Waikato, Te Kaokaoroa o Pātetere,
Mangatoatoa ki waenganui
Ngāti Maniapoto te iwi
Ngāti Paretekawa, Ngāti Unu ngā hapū
Ko Mania Maniapoto-Ngaia e mihi kau atu ana

Mania is a proud māmā of two, committed to working with whānau to develop and broaden opportunities that will benefit future generations, particularly of her hapū and whānau.

Mania graduated from Victoria and Massey Universities, and later worked between New Zealand and Canada developing and supporting capability of Māori, Pasifika, and First Nations iwi to enhance their health services and social outcomes. Her experience and background extends to the tertiary education sector, improving equity outcomes, undertaking quality assurance of tertiary education providers, evaluation and research.

He tina ki runga, he tāmōre ki raro

Contentment above, firmly rooted below

A/Prof Angela Ballantyne

Membership category: expertise in ethics

Date of first appointment: 5 September 2019

Current term expires: 27 February 2020

Angela is an Associate Professor in Bioethics at the University of Otago, Wellington.

Angela is currently serving as the ethics member on the National COVID-19 Immunisation Implementation Advisory Group and previously served on the Central Health and Disability Ethics Committee for eight years.

Angela resigned from ECART as she accepted the opportunity to be Senior Visiting Research Fellow at the Centre for Biomedical Ethics at the National University of Singapore on an 18-month secondment.

Dr Tepora Emery

Membership category: expertise in Māori customary values and perspectives

Date of first appointment: 12 December 2019

Current term expires: 12 April 2022

Tepora works at Toi Ohomai Institute of Technology in Rotorua where she holds multiple roles. Namely, Kaupapa Māori Research Leader, Principal Lecturer (Masters of Applied Professional Studies) and Senior Researcher. Tepora has deep roots in the Te Arawa being affiliated to Ngāti Pikiao, Ngāti Rangiwewehi and Ngāti Whakāue. On her father's side she is from Ngāti Unu, Ngāti Kahu ki Maniapoto – Tainui waka.

In 2018-2019 Tepora was the Principal Investigator for Toi Ohomai's New Zealand Science Challenge Research Project – Toitū te Kainga, Toitū te Tangata, Toitū te Ora (Health homes, healthy people). She is Co-lead investigator for the Kōeke a ko ake nei – towards intergenerational positive ageing for Ngati Pikiao peoples research which is a collaborative venture between Ngati Pikiao Iwi Trust and Toi Ohomai. Supporting, creating and facilitating research and education pathways, opportunities and benefits for Toi Ohomai staff, and whānau, hapū, iwi and hāpori in the Toi Ohomai rohe, is central to her work.

Tepora's rich research and learning and teaching background has led to an holistic approach to her work; she believes that research and education, leading to critical awareness of dominant cultural and societal influences, is foremost to leading a full, rich and meaningful life. Through her work she encourages people to critically question and examine social, political and economic structures in order to deepen their consciousness and understanding of the world around them.

Non-lay members

Dr Freddie Graham

Membership category: expertise in human reproductive procedures

Date of first appointment: 21 July 2011

Current term expires: 5 September 2019*

Dr Freddie Graham is currently an obstetrician and gynaecologist at Fertility Associates. He established New Zealand's first private fertility clinic, Fertility Associates (1987) and was awarded the Companion of the New Zealand Order of Merit for his services to medicine in 2009. Dr Graham has completed a Bachelor of Medicine and Bachelor of Surgery at London University, a Fellowship of the Royal College of Surgeons from the Royal College of Surgeons of Edinburgh), as well as a Fellowship of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists.

Dr Mary Birdsall

Membership category: member with expertise in assisted reproductive procedures

Date of first appointment: 28 March 2017

Current term expires: 28 March 2020

Mary is Fertility Associates Group Medical Director and one of the most sought after fertility specialists within New Zealand. Mary is innovative, caring and has a breadth of experience across all aspects of fertility care.

Mary specialises in the latest fertility technologies, including egg preservation, genetic screening and has advocated for patients to be able to access new treatments such as ovarian tissue transplants for cancer patients.

Mary also publishes regular articles including a regular review in the Fertility Research Review, and is a recognised media spokesperson across all fertility topics. Mary has also published the Fertility Associates book 'Making Babies'.

Mary graduated from Auckland Medical School followed by post-graduate training at National Women's Hospital. She was awarded a Nuffield Scholarship and completed a Masters Degree in Human Reproduction at Oxford University from 1993 to 1996. Mary returned to New Zealand in 1996 and joined Fertility Associates.

Dr Paul Copland

Membership category: expertise in human reproductive research

Date of first appointment: 24 September 2015

Current term expires: 17 September 2021

Dr Copland has a Bachelor of Science with Honours in Biochemistry from Otago University and completed his Doctoral research on Embryonic Stem Cell Research and the Metaphysics of Identity in 2004.

He served two terms as the ethicist member of the Multi Region Ethics Committee (MREC) from 2008-2012 before moving to Australia to manage research ethics committees for a large University.

Current research interests include the role of ethics committees in promoting research integrity. Paul was appointed as a member with expertise in human reproductive research in August 2015.

A/Prof Mike Legge

Membership category: expertise in human reproductive research

Date of first appointment: 5 September 2019

Current term expires: 22 December 2022

Mike retired as an Associate Professor in the Department of Biochemistry University of Otago where he now holds an Honorary Research Associate Professorship. Initially qualifying and working in Chemical Pathology in the United Kingdom and New Zealand, he completed his PhD in embryology in the United Kingdom on a Scholarship and has worked in IVF clinics in the United Kingdom, before returning to New Zealand to take up his position with the University of Otago.

As a previous past President of the New Zealand Infertility Society (now Fertility NZ) he has a strong interest in all aspects of assisted reproductive technologies. He has been involved with and has Chaired a number of national and international scientific and ethics committees relating to health sciences and policy, including Deputy Chair of the Advisory Committee on Assisted Reproductive Technology.

He is a Fellow of and Examiner for the Faculty of Science, Royal College of Pathologists of Australasia, and continues his research, collaborations and publications with colleagues investigating aspects of metabolism, reproduction, bioethics and concepts of families using reproductive technologies.

* Unless a person sooner vacates their office, every appointed member of ECART shall continue in office until their successor comes into office. (ECART Terms of Reference)

C = member with the ability to articulate issues from a consumer or community perspective

ARP = member with expertise in assisted reproductive procedures

HRR = member with expertise in human reproductive research

Applications reviewed

ECART reviewed 64 applications in 2019/2020. These included 11 applications for donated eggs in conjunction with donated sperm (including one extension), one application for donation of gametes between certain family members, 11 applications for embryo donation, 39 applications for surrogacy arrangements involving providers of fertility services, one application for the use of posthumous sperm and one application for preimplantation genetic diagnosis with human leucocyte antigen tissue typing.

Figure 1: The number and type of applications reviewed by ECART by year, 2010/2011 – 2019/2020

Of the 64 assisted reproductive procedure applications reviewed in 2019/2020, 47 were approved at first review, one was approved subject to conditions, two were approved with recommendations, 13 were deferred, and one was declined.

Of the 13 deferred applications, eight were approved on second review and one was declined.

In this reporting year ECART considered and approved one application for pre-implantation genetic diagnosis (PGD) with human leucocyte antigen (HLA) tissue typing. ECART considered this application in accordance with updated ACART guidelines that came into effect on 18 August 2014. The amended guidelines replaced the previous guidelines issued in 2005 and expanded on PGD with HLA Tissue Typing to allow its use to find a tissue match for a sick child with a non-genetic disease. PGD with HLA tissue typing may only be used where the child to be treated will be a brother or sister of the resulting child.

This year, ECART considered 155 storage extension applications. Details can be found on page 23 of this report.

This was a substantial increase compared with the previous year when ECART considered 68 applications for extended storage of gametes and embryos.

Creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm

In 2019/2020, ECART reviewed 11 applications for the creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm (including one extension). This is the ninth year in which ECART has considered this type of application.

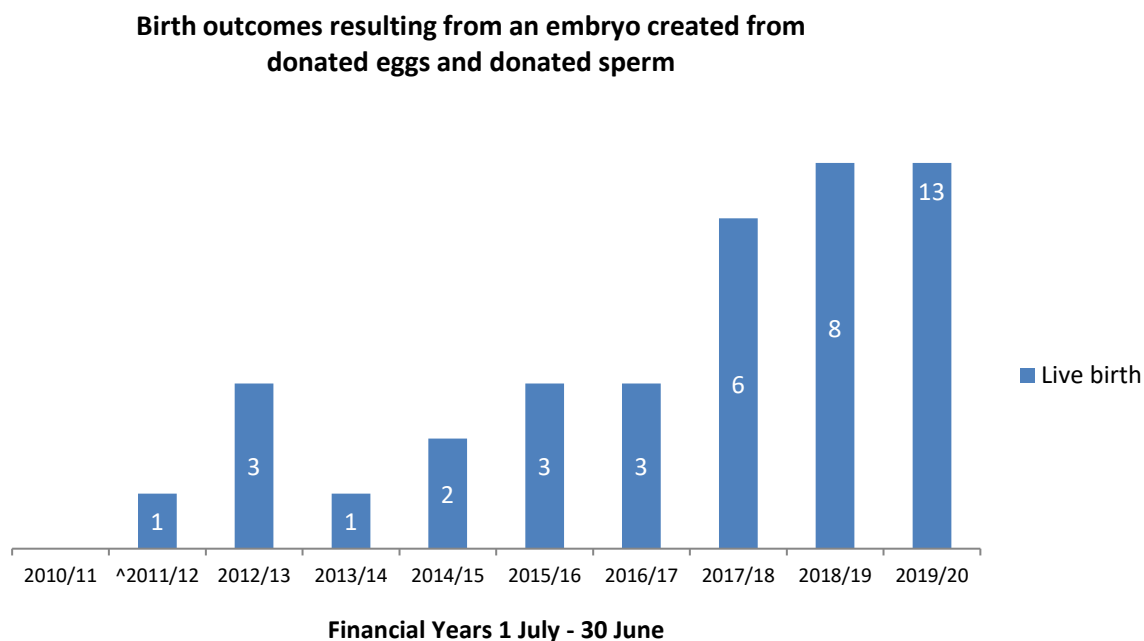

As of 1 July 2020, 9 applications were approved, one was deferred, and one was declined.

For the declined application, the Committee had concerns that, given the applicant's complex genetic background and medical history, there was significant risk of negative outcomes for the recipient woman and her potential child during a pregnancy. ECART declined the application with reliance on principles (a) and (c) of the HART Act 2004.

Of the 40 currently approved applications of this type there have been 13 live births in 2019/2020.

The total number of applications reviewed by ECART since 2005 have resulted in 40 births.

Figure 2: Birth outcomes from current applications for the creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm by year, 2010/2011 – 2019/2020

[^]2011/2012 is the first year that ECART considered this type of application.

Surrogacy arrangements involving providers of fertility services

In 2019/2020, ECART reviewed 39 applications for surrogacy arrangements involving providers of fertility services.

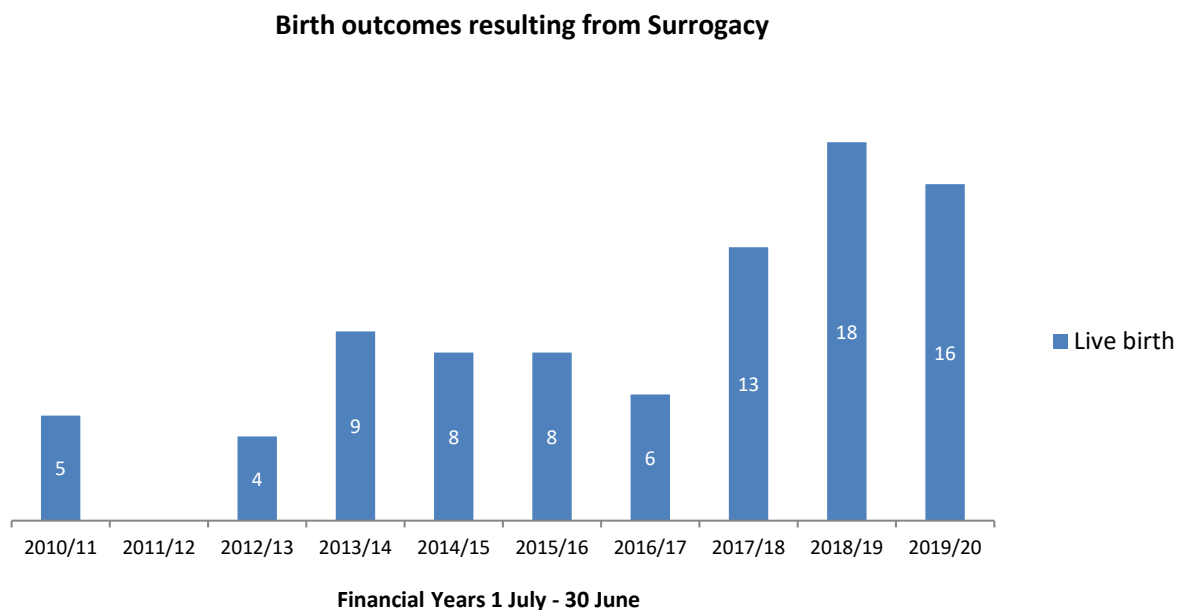

As of 1 July 2020, 33 of the 39 surrogacy applications received by ECART in 2019/2020 were approved, one was approved subject to conditions, two were approved with recommendations and one was declined. Two applications were deferred.

For the declined application, ECART agreed there was a significant risk of negative outcomes for the birth mother due to her health and her situational factors. There was also a risk that the intending parents, who lived overseas, might not be able to take the baby into their care within their expected timeframes and, the birth mother could then be left to care for the baby for a time along with her own children. The application was later approved when further information was provided, subject to the condition that the intending parents be present in person at the birth and be able to take over care of the child immediately after birth.

Of the 107 currently approved surrogacy applications there were 16 live births during 2019/2020.

The total number of surrogacy applications approved by ECART since 2005 have resulted in a total of 115 live births.

Figure 3: Birth outcomes from current applications for surrogacy arrangements involving providers of fertility services by year, 2010/2011 – 2019/2020

Donation of eggs or sperm between certain family members

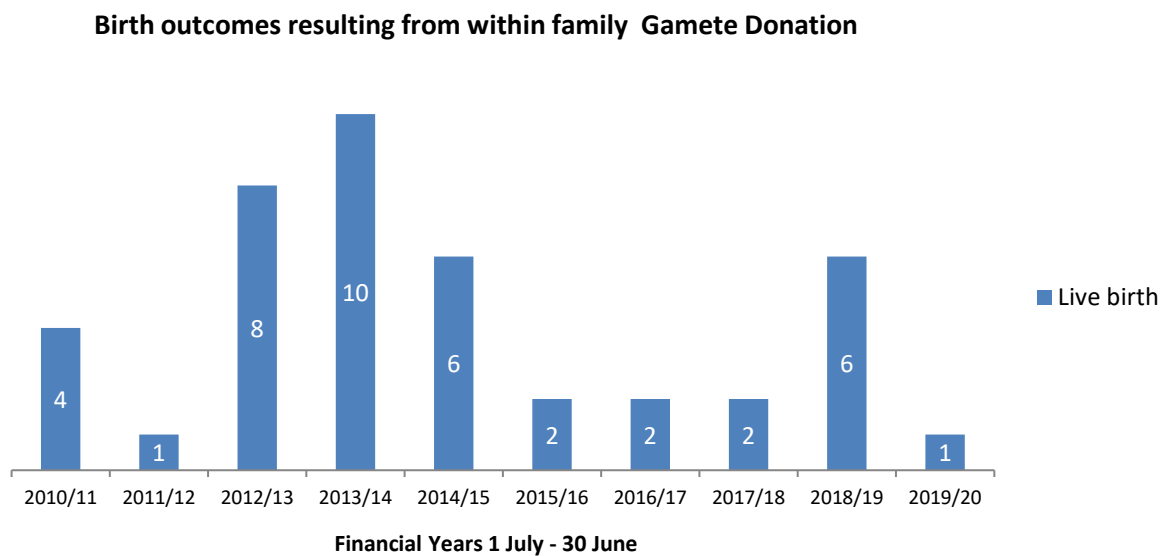

In 2019/2020, ECART reviewed one application for the donation of eggs or sperm between family members.

As of 1 July 2020, one application was approved.

Of the 20 currently approved applications of this type, there was one live birth during 2019/2020.

The total number of applications for the donation of eggs or sperm between family members approved by ECART since 2005 have resulted in a total of 62 live births.

Figure 4: Birth outcomes from current applications for the donation of eggs or sperm between certain family members by year, 2010/2011 – 2019/2020

Embryo donation for reproductive purposes

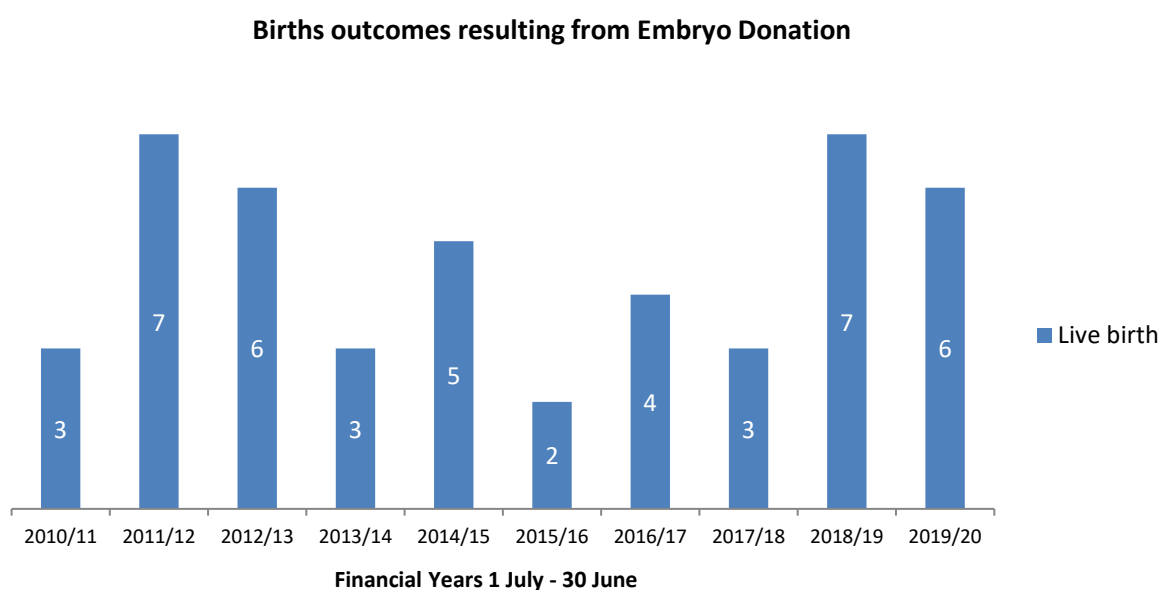

ECART reviewed 11 applications involving embryo donation for reproductive purposes in 2019/2020.

As of 1 July 2020, all 11 applications were approved.

Of the 39 currently approved applications for embryo donation there were six live births during 2019/2020.

The total number of embryo donation applications approved by ECART since 2005 have resulted in 54 live births.

Figure 5: Birth outcomes for current applications from Embryo donation, by year, 2010/11 – 2019/20

Storage Extension Applications

This year ECART considered 155 storage extension applications.

At the first review 141 applications were approved, four were deferred and one was declined. On second review all four of the deferred applications were approved.

The declined application was for the extension of the storage of embryos. ECART declined this application on the basis that the New Zealand legislation does not give the Committee any discretion to approve an application after the expiry date of stored gametes or embryo (section 10, HART Act, 2004).

Figure 6: The number of storage extension applications received for 2015/2016 – 2019/2020

Issues and complaints

This section outlines issues faced by the Committee during 2019/2020.

Advice on established procedures

In February 2011, the Minister assigned ECART the function of giving ethical advice on established procedures to fertility clinics when requested by them to do so.

ECART did not consider any established procedures in 2019/20.

Issues referred to ACART

No issues were referred to ACART in 2019/2020.

Complaints received

ECART did not receive any complaints during 2019/2020.

Appendix C – Storage extension applications received 1 July 2019 – 30 June 2020

App#	Stored product	Date of first review	Initial decision	Expiry date
E19/43	Donor Sperm	5/09/2019	Approved	14/09/2021
E19/54	Donor sperm	4/07/2019	Approved	8/07/2022
E19/55	Embryos	23/07/2019	Deferred	25/07/2022
E19/55	Embryos	23/07/2019	Approved	25/07/2019
E19/57	Embryos	12/07/2019	Deferred	13/07/2021
E19/58	Sperm	4/07/2019	Approved	3/08/2021
E19/59	Embryos	4/07/2019	Approved	3/08/2022
E19/60	Embryos	4/07/2019	Approved	20/08/2024
E19/61	Cryopreserved ovarian tissue	4/07/2019	Approved	20/08/2023
E19/62	Donor Sperm & Embryos	4/07/2019	Approved	2/09/2024
E19/63	Embryos	4/07/2019	Approved	9/09/2023
E19/64	Donor Sperm & Embryos	4/07/2019	Approved	Sperm-15/09/24 & 23/09/24. Embryo-05/10/24
E19/65	Donor Sperm & Embryos	4/07/2019	Approved	Sperm-15/09/23 Embryo-15/09/23
E19/66	Sperm	4/07/2019	Approved	1/12/24, 12/03/24, 28/10/25, 09/12/25
E19/67	Embryos (donor sperm + egg)	4/07/2019	Approved	12/10/2025
E19/68	Sperm	4/07/2019	Approved	15/10/25, 11/11/25, 09/11/26
E19/69	Embryos	4/07/2019	Approved	18/10/2021
E19/70	Donor Sperm	4/07/2019	Approved	27/10/24 & 23/11/24
E19/71	Embryos & donor sperm	4/07/2019	Approved	6/11/2024
E19/72	Embryos	4/07/2019	Approved	12/11/2023
E19/73	Donor Sperm & Embryos	4/07/2019	Approved	16/11/2024 & 02/02/2025
E19/74	Sperm	4/07/2019	Approved	22/11/2024

*STC = Subject to conditions

Approved with recs = Approved with recommendations

App#	Stored product	Date of first review	Initial decision	Expiry date
E19/75	Sperm	4/07/2019	Approved	22/11/2024
E19/76	Sperm	4/07/2019	Approved	22/11/2029
E19/77	Embryos	5/09/2019	Deferred	21/07/2020
E19/84	Embryos	5/09/2019	Approved	7/09/2020
E19/85	Embryos	5/09/2019	Approved	9/09/2020
E19/86	Donor Sperm	5/09/2019	Approved	15/09/2024 & 23 Sept 2024
E19/87	Sperm	5/09/2019	Approved	30/09/2024
E19/88	Sperm	5/09/2019	Approved	1/10/2024
E19/89	Embryos	5/09/2019	Approved	16/10/2020
E19/90	Embryos	5/09/2019	Approved	3/11/2021
E19/91	Embryos	5/09/2019	Approved	17/11/2023
E19/92	Embryos	5/09/2019	Approved	19/11/2020
E19/93	Sperm	5/09/2019	Approved	22/11/2024
E19/94	Sperm	5/09/2019	Approved	22/11/2024
E19/95	Sperm	5/09/2019	Approved	22/11/2024
E19/96	Sperm	5/09/2019	Approved	22/11/2024
E19/97	Embryos	5/09/2019	Approved	22/11/2024
E19/98	Donor Sperm & Embryos	5/09/2019	Approved	22/11/24 + 24/04/24
E19/99	Sperm & Embryos	5/09/2019	Approved	22/11/2024
E19/100	Sperm	5/09/2019	Approved	22/11/2024
E19/101	Sperm	5/09/2019	Approved	22/11/2029
E19/102	Embryos	5/09/2019	Approved	1/12/2029
E19/103	Sperm	5/09/2019	Approved	3/12/2029
E19/104	Donor Sperm & Embryos	5/09/2019	Approved	18/12/2024
E19/105	Embryos & sperm	5/09/2019	Approved	19/01/2023
E19/106	Sperm	5/09/2019	Approved	19/01/2023
