About ECART

The Ethics Committee on Assisted Reproductive Technology (ECART) is the ethics committee for the purposes of the Human Assisted Reproductive Technology Act 2004 ([the HART Act](#)), which aims to secure the benefits of these technologies by promoting and protecting the health, safety, dignity and rights of those involved in them.

Under the HART Act, ECART's prior approval is required in order to conduct:

- human reproductive research (that is, research that involves the creation or use of human gametes, human embryos or hybrid embryos)
- assisted reproductive procedures, except those that have been declared to be 'established procedures'.

ECART reviews applications for human reproductive research and assisted reproductive procedures in accordance with guidelines issued by the Advisory Committee on Assisted Reproductive Technology (ACART).

Purpose of this report

ECART's [Terms of Reference](#) require it to report annually to the Minister of Health.

This report must include information on ECART's membership, a summary of the applications reviewed during the year, details of any complaints received (and how they were resolved), and areas of review that caused difficulty in making decisions. The report should also detail the number and type of applications for assisted reproductive procedures and human reproductive research, the date of first review, the final outcome, and the reason for the deferring or declining of any applications.

Chairperson's report

I am pleased to present the 17th Annual Report of the Ethics Committee on Assisted Reproductive Technology (ECART), for the year ending 30 June 2022.

Applications

In 2021/2022, ECART reviewed 76 applications over six meetings; compared with the 2020/2021 year when ECART reviewed 71 applications over six meetings. ECART also reviewed 126 applications to extend the storage period of gametes and embryos beyond their original 10-year limit.

ACART guidelines

No guidelines were published in 2021/2022.

Additional function

Following a request from fertility clinics to be able to approach ECART for informal advice on established procedures, ECART wrote to the Minister of Health asking for this function to be assigned pursuant to section 28(1)(e) of the HART Act. The Minister agreed to assign this function to ECART, and asked for details of such advice to be included in future Annual Reports; these details can be found on page 15 of this report.

Committee members

I wish to record my gratitude and thanks to all the committee members for their continuing commitment to ECART, without which the committee could not function effectively. I would particularly like to thank Ms Michele Stanton, Dr Tepora Emery, Dr Mary Birdsall and Dr Paul Copland who completed their ECART terms this year. I would also like to welcome Ms Jeanne Snelling who will begin her term as ECART Chair on 23 December 2022.

Iris Reuvecamp
Chairperson

Membership and attendance

Membership

Lay members

Ms Iris Reuvecamp (Chair)

Membership category: expertise in the law

Date of first appointment: August 2015

Current term expires: 11 October 2022

Iris is a barrister and solicitor, and has many years of experience specialising in health and disability law in both the United Kingdom and New Zealand. Iris has worked as in-house counsel and as an external adviser for a wide range of health and disability sector clients. Iris currently practises as a sole practitioner at Vida Law.

Iris' practice includes advising on administrative and public law issues; civil litigation and judicial review processes; complaints, inquiries, investigations and inquests; corporate and clinical governance (including conflicts of interest and legal compliance); health sector policy; privacy law; health sector procurement and contracting; health sector employment; mental health; personal welfare and protection of personal and property rights; personal injury, treatment injury and accident compensation; and professional regulation.

Iris has a Bachelor of Law (Honours) and a Bachelor of Arts majoring in Psychology and Criminology from Victoria University of Wellington (1998), and a Masters in Bioethics and Health Law (Distinction) from the University of Otago (2012). She is a member of the Institute of Directors (2014) and an associate member of the Arbitrators' and Mediators' Institute of New Zealand (2016). She is currently undertaking a Master of Laws at the University of Auckland specialising in human rights.

Ms Jeanne Snelling

Membership category: expertise in the law

Date of first appointment: 25 February 2022

Current term expires: 22 December 2024

Jeanne is an experienced academic with a wealth of knowledge in the health sector and bioethics.

Jeanne is currently working as a Lecturer for the Faculty of Law and the Bioethics Centre at the University of Otago, where she has previously held a number of roles including the supervision of postgraduate students. She has also previously been a Research Fellow for the Bioethics Centre at the Dunedin School of Medicine.

Jeanne has been involved in a range of research projects covering topics such as medical law, law and genomics, and law and neuroscience.

Ms Judith Charlton

Membership category: expertise in disability perspective

Date of first appointment: 7 July 2016

Current term expires: 22 December 2022

Jude was born with a physical disability, and has always been a fighter for disability rights, particularly in relation to access, education, and employment.

Jude gained a degree in Sociology and Education, as an adult student at Canterbury University. Since then, she has worked in disability support on campus at CPIT and Lincoln University. During her time on campus, Jude travelled overseas, on a Churchill Fellowship, meeting disabled students, and disability support staff.

Her background also includes working as an educator for the Human Rights Commission, and an advocate in the disability sector.

Jude has also enjoyed working as a volunteer teaching English to Refugees and Migrants, and was a founding member of the Disabled Persons Assembly.

She is currently enjoying semi-retirement and spending time with her grandchildren, while working part time for CCS Disability Action, giving disability awareness presentations to schools and the wider community.

Ms Michèle Stanton

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 7 July 2016

Current term expires: 25 February 2022

Michele is a solicitor with a particular interest in medico-legal and employment law in the health sector.

As a Director of Health Professional Legal Services Limited, Michele acts as legal counsel for health professionals on behalf of insurer New Zealand Medical Professionals Ltd. Michele's work also includes legal and advocacy advice from the NZ Resident Doctors Association, NZ Medical Laboratory Workers Union and APEX.

Michele is a member of the Auckland District Law Society Health & Disability Law Committee, and a Board member of the Academic Quality Agency for New Zealand Universities.

Michele has served on the Physiotherapy Board of New Zealand, under the Health Practitioners Competence Assurance Act 2003 and is a former member of the UNITEC Research Ethics Committee, and a former lawyer member of Northern X, and Northern A Health and Disability Ethics Committees.

Michele has a Diploma in Business Studies from Massey University (1998), and Bachelor of English from the University of Canterbury (1981) a Bachelor of Laws from the University of Canterbury (1984), and a Graduate Diploma in Law from the University of Auckland (1988).

Michele's background includes advocacy, research ethics, occupational regulation and quality assurance in the financial services, education and health sectors.

Mrs Mania Maniapoto-Ngaia

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 5 September 2019

Current term expires: 22 December 2022

Mōkau ki runga, Tāmaki ki raro,
Pare Hauraki, Pare Waikato, Te Kaokaoroa o Pātetere,
Mangatoatoa ki waenganui
Ngāti Maniapoto te iwi
Ngāti Paretekawa, Ngāti Unu ngā hapū
Ko Mania Maniapoto-Ngaia e mihi kau atu ana

Mania is a proud māmā of two, committed to working with whānau to develop and broaden opportunities that will benefit future generations, particularly of her hapū and whānau.

Mania graduated from Victoria and Massey Universities, and later worked between New Zealand and Canada developing and supporting capability of Māori, Pasifika, and First Nations iwi to enhance their health services and social outcomes. Her experience and background extends to the tertiary education sector, improving equity outcomes, undertaking quality assurance of tertiary education providers, evaluation and research.

He tina ki runga, he tāmōre ki raro

Contentment above, firmly rooted below

Dr Tepora Emery

Membership category: expertise in Māori customary values and perspectives

Date of first appointment: 12 December 2019

Current term expires: 12 April 2022

Tepora works at Toi Ohomai Institute of Technology in Rotorua where she holds multiple roles. Namely, Kaupapa Māori Research Leader, Principal Lecturer (Masters of Applied Professional Studies) and Senior Researcher. Tepora has deep roots in the Te Arawa being

affiliated to Ngāti Pikiao, Ngāti Rangiwewehi and Ngāti Whakaue. On her father's side she is from Ngāti Unu, Ngāti Kahu ki Maniapoto – Tainui waka.

In 2018-2019 Tepora was the Principal Investigator for Toi Ohomai's New Zealand Science Challenge Research Project – Toitū te Kainga, Toitū te Tangata, Toitū te Ora (Health homes, healthy people). She is Co-lead investigator for the Kōeke a ko ake nei – towards intergenerational positive ageing for Ngati Pikiao peoples research which is a collaborative venture between Ngati Pikiao Iwi Trust and Toi Ohomai. Supporting, creating and facilitating research and education pathways, opportunities and benefits for Toi Ohomai staff, and whānau, hapū, iwi and hāpori in the Toi Ohomai rohe, is central to her work.

Tepora's rich research and learning and teaching background has led to an holistic approach to her work; she believes that research and education, leading to critical awareness of dominant cultural and societal influences, is foremost to leading a full, rich and meaningful life. Through her work she encourages people to critically question and examine social, political and economic structures in order to deepen their consciousness and understanding of the world around them.

A/Prof Angela Ballantyne

Membership category: expertise in Ethics

Date of first appointment: 25 February 2022

Current term expires: 22 December 2024

Angela is an Associate Professor in Bioethics at the University of Otago, Wellington.

Angela is currently serving as the ethics member on the National COVID-19 Immunisation Implementation Advisory Group and previously served on the Central Health and Disability Ethics Committee for eight years.

Angela is a previous member of ECART but resigned as she accepted the opportunity to be Senior Visiting Research Fellow at the Centre for Biomedical Ethics at the National University of Singapore on an 18-month secondment.

Ms Analosa Veukiso-Ulugia

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 25 February 2022

Current term expires: 22 December 2024

Analosa is a health professional with a wealth of governance, community and professional experience.

Analosa is currently undertaking a Health Research Council Postdoctoral Fellowship which will enable her to create, pilot and evaluate a supplementary Pacific sexuality resource toolkit designed for New Zealand teachers of Pacific students. She is the Director and Founder of Manino Limited, and has previously been a Lecturer in the School of Counselling, Services and Social Work at the University of Auckland.

Analosa also recently finished her term as a member of ACART.

Mr Richard Ngatai

Membership category: member with the ability to articulate issues from a consumer or community perspective

Date of first appointment: 25 February 2022

Current term expires: 22 December 2024

Richard's whakapapa stretches from Ngāti Makino (Te Arawa) on his father's side to Ngāti Kahungunu (Tākitimu) and Ngāti Wehi Wehi (Tainui) on his mother's side.

Richard holds bachelor degrees in laws and arts, trained as a secondary teacher and completed his master of laws with a focus on international law and indigenous rights.

He is an experienced strategy and policy practitioner with extensive experience in a wide range of social, health and operational policy sectors.

Richard has held roles with the Office of the Ombudsman (both in NZ and the UK), New Zealand Defence Force, Social Workers Registration Board (SWRB), as well as spending several years working for the Care Quality Commission (the national health and social care regulator) in London. Prior to working in the UK, Richard worked for the Human Rights Commission and Te Puni Kōkiri. He currently works at NZ Police, while acting as a lay

member for SWRB's Professional Conduct Committees, a member of the Pharmacy Council of NZ's Te Tiriti Advisory Group, and is a whānau representative on Wellington High School's school board. The rest of his time is taken by chasing his 6 year old around the house and garden, and chasing his teenage son off the X-Box.

Non-lay members

Dr Mary Birdsall

Membership category: member with expertise in assisted reproductive procedures

Date of first appointment: 28 March 2017

Current term expires: 28 March 2020*

Mary is Fertility Associates Group Medical Director and one of the most sought after fertility specialists within New Zealand. Mary is innovative, caring and has a breadth of experience across all aspects of fertility care.

Mary specialises in the latest fertility technologies, including egg preservation, genetic screening and has advocated for patients to be able to access new treatments such as ovarian tissue transplants for cancer patients.

Mary also publishes regular articles including a regular review in the Fertility Research Review, and is a recognised media spokesperson across all fertility topics. Mary has also published the Fertility Associates book 'Making Babies'.

Mary graduated from Auckland Medical School followed by post-graduate training at National Women's Hospital. She was awarded a Nuffield Scholarship and completed a Masters Degree in Human Reproduction at Oxford University from 1993 to 1996. Mary returned to New Zealand in 1996 and joined Fertility Associates.

Dr Paul Copland

Membership category: expertise in human reproductive research

Date of first appointment: 24 September 2015

Current term expires: 17 September 2021*

Dr Copland has a Bachelor of Science with Honours in Biochemistry from Otago University and completed his Doctoral research on Embryonic Stem Cell Research and the Metaphysics of Identity in 2004.

He served two terms as the ethicist member of the Multi Region Ethics Committee (MREC) from 2008-2012 before moving to Australia to manage research ethics committees for a large University.

Current research interests include the role of ethics committees in promoting research integrity.

A/Prof Mike Legge

Membership category: expertise in human reproductive research

Date of first appointment: 5 September 2019

Current term expires: 22 December 2022

Mike retired as an Associate Professor in the Department of Biochemistry University of Otago where he now holds an Honorary Research Associate Professorship. Initially qualifying and working in Chemical Pathology in the United Kingdom and New Zealand, he completed his PhD in embryology in the United Kingdom on a Scholarship and has worked in IVF clinics in the United Kingdom, before returning to New Zealand to take up his position with the University of Otago.

As a previous past President of the New Zealand Infertility Society (now Fertility NZ) he has a strong interest in all aspects of assisted reproductive technologies. He has been involved with and Chaired a number of national and international scientific and ethics committees relating to health sciences and policy, including Deputy Chair of the Advisory Committee on Assisted Reproductive Technology.

He is a Fellow of and Examiner for the Faculty of Science, Royal College of Pathologists of Australasia, and continues his research, collaborations and publications with colleagues investigating aspects of metabolism, reproduction, bioethics and concepts of families using reproductive technologies.

Dr Emily Liu

Membership category: expertise in assisted reproductive procedures

Date of first appointment: 25 February 2022

Current term expires: 22 December 2024

Emily is currently employed as a Senior Medical Officer in Women's Health at Fertility Plus, Auckland District Health Board, where she has been actively involved in overseeing applications to ECART for the last two years.

Emily is a fertility specialist and gynaecologist with experience in both the public and private sectors. She is also employed as a gynaecologist and fertility specialist at Repromed Fertility.

Emily has developed her skills in research and has been actively involved in several trials in the area of fertility.

* Unless a person sooner vacates their office, every appointed member of ECART shall continue in office until their successor comes into office. (ECART Terms of Reference)

Applications reviewed

ECART reviewed 76 applications in 2021/2022. These included six applications for donated eggs in conjunction with donated sperm, 10 applications for donation of eggs/sperm between certain family members, 17 applications for embryo donation (including two extensions), 42 applications for surrogacy arrangements involving providers of fertility services (including two extensions), and one application for the posthumous use of sperm.

Figure 1: The number and type of applications reviewed by ECART by year, 2012/2013 – 2021/2022

Of the 76 assisted reproductive procedure applications reviewed in 2021/2022, 44 were approved at first review, 16 were approved subject to conditions, four were approved with recommendations, 10 were deferred, and two were declined.

Of the 10 deferred applications, 9 were approved on second review and one had no outcome as at 1 July 2022.

One of the declined applications was for the posthumous use of sperm. ECART declined the application because it was not satisfied that the man had given informed consent for the use of his sperm by his partner in the event of his death. ECART accepted that the man’s signed consent at the time of collection, where he consented to his sperm being disposed of in the event of his death, was not updated to take into account the change in his circumstances, but felt that there was insufficient evidence to support a clear change of mind.

In this reporting year ECART considered and approved no applications for pre-implantation genetic diagnosis (PGD) with human leucocyte antigen (HLA) tissue typing.

This year, ECART considered 126 storage extension applications. Details can be found on page 21 of this report.

This was an increase from the previous year when ECART considered 89 applications for extended storage of gametes and embryos.

Creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm

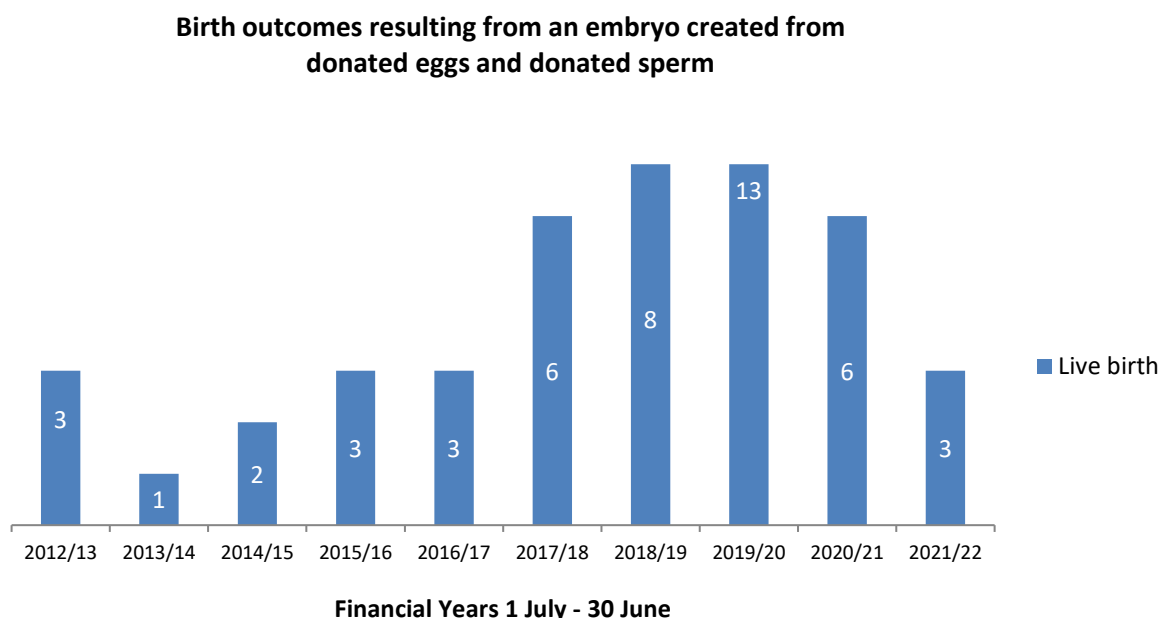

In 2021/2022, ECART reviewed six applications for the creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm.

As of 1 July 2022, five applications were approved, and one was approved subject to conditions.

Of the 38 currently approved applications of this type there have been three live births in 2021/2022.

The total number of applications reviewed by ECART since 2005 have resulted in 49 births.

Figure 2: Birth outcomes from current applications for the creation and use, for reproductive purposes, of an embryo created from donated eggs in conjunction with donated sperm by year, 2012/2013 – 2021/2022

^ 2011/2012 is the first year that ECART considered this type of application.

Surrogacy arrangements involving providers of fertility services

In 2021/2022, ECART reviewed 42 applications for surrogacy arrangements involving providers of fertility services.

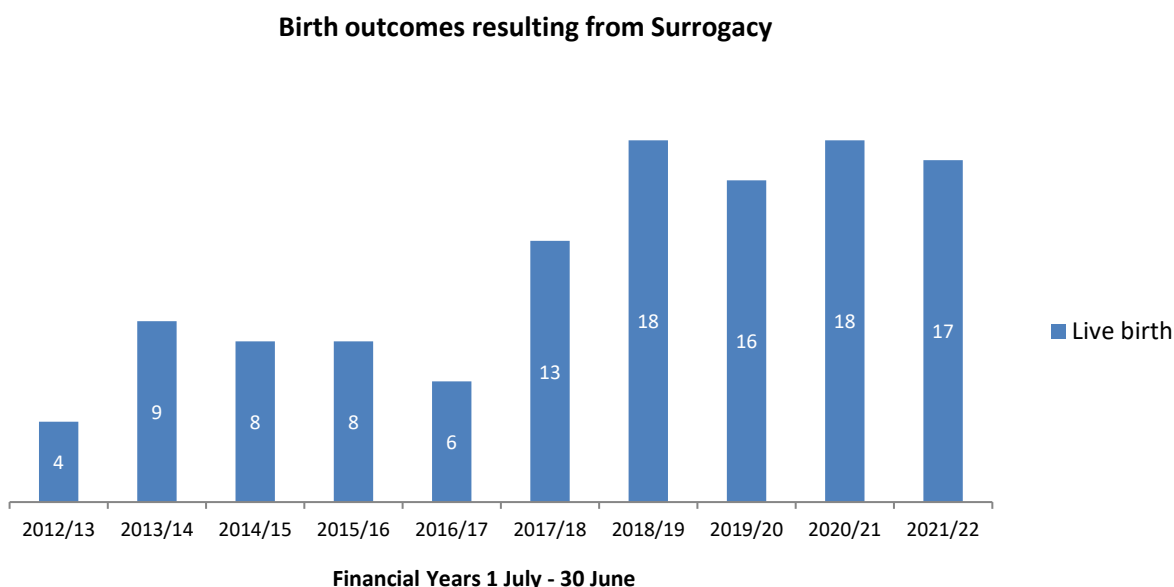

As of 1 July 2022, 25 of the 42 surrogacy applications received by ECART in 2021/2022 were approved, 14 applications were approved subject to conditions, 2 were approved with recommendations and one had been declined. Two applications were requests for extensions which were both approved.

For the declined application, the Committee was concerned about the birth mother's mental health history and that the surrogacy related stress could destabilise this, with potentially significant implications for all of the parties involved. In conjunction with the proposed surrogate's complicated obstetric history, ECART considered that the risks associated with undertaking a surrogate pregnancy could not be justified in these circumstances. ECART therefore decided to decline the application with reliance on principles (a) and (c) of the HART Act 2004.

Of the 129 currently approved surrogacy applications there were 17 live births during 2021/2022.

The total number of surrogacy applications approved by ECART since 2005 have resulted in a total of 150 live births.

Figure 3: Birth outcomes from current applications for surrogacy arrangements involving providers of fertility services by year, 2012/2013 – 2021/2022

Donation of eggs or sperm between certain family members

In 2021/2022, ECART reviewed 10 applications for the donation of eggs or sperm between family members.

As of 1 July 2022, 9 applications were approved, and one was approved subject to conditions.

Of the 20 currently approved applications of this type, there was one live birth during 2021/2022.

The total number of applications for the donation of eggs and sperm between family members approved by ECART since 2005 have resulted in a total of 66 live births.

Figure 4: Birth outcomes from current applications for the donation of eggs or sperm between certain family members by year, 2012/2013 – 2021/2022

Embryo donation for reproductive purposes

ECART reviewed 17 applications involving embryo donation for reproductive purposes in 2021/2022.

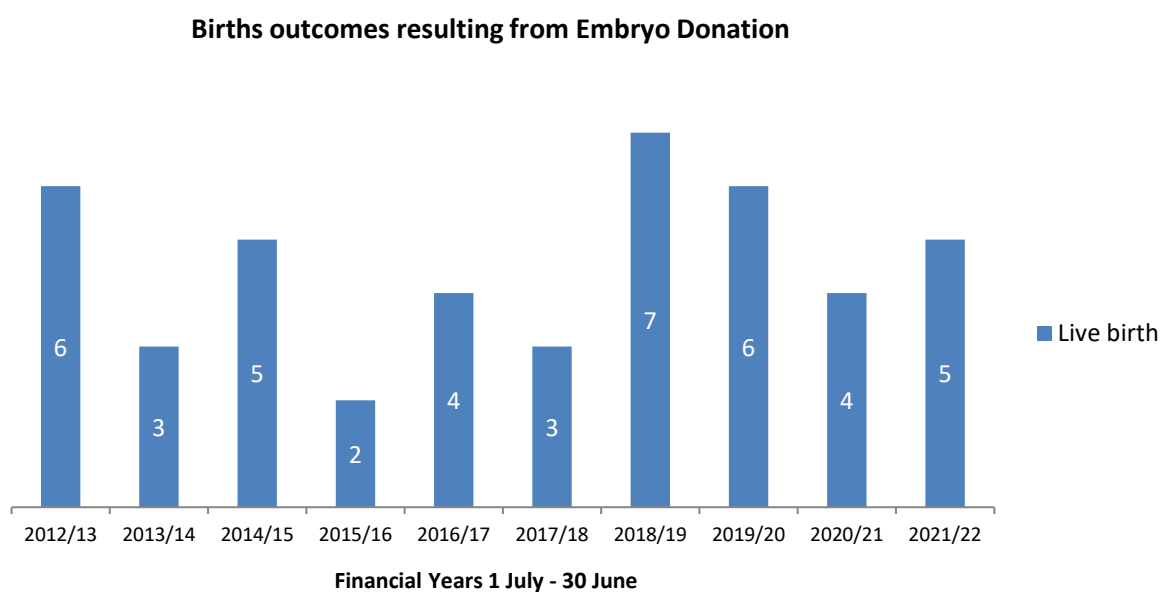

As of 1 July 2022, 15 applications were approved, and two applications were approved with recommendations.

Two applications were requests for an extension, which were both approved.

Of the 44 currently approved applications for embryo donation there were five live births during 2021/2022.

The total number of embryo donation applications approved by ECART since 2005 have resulted in 63 live births.

Figure 5: Birth outcomes for current applications from Embryo donation, by year, 2012/13 – 2021/22

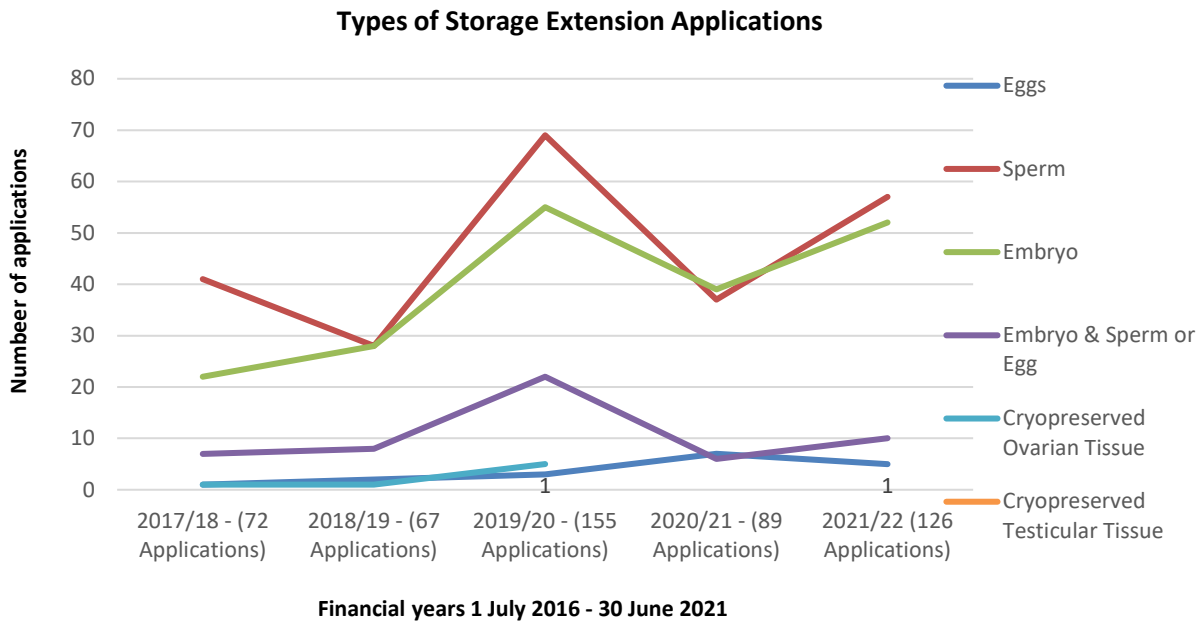

Storage Extension Applications

This year ECART considered 126 storage extension applications.

At the first review 123 applications were approved, one was declined, and one was withdrawn.

The declined application was for an extension to the storage of embryos. ECART declined the application on the basis that the HART Act does not allow it to consider applications which are received more than 10 years after the initial storage date.

Figure 6: The number of storage extension applications received for 2017/2018 – 2021/2022

Issues and complaints

This section outlines issues faced by the Committee during 2021/2022.

Advice on established procedures

In February 2011, the Minister assigned ECART the function of giving ethical advice on established procedures to fertility clinics when requested by them to do so.

No issues were referred to ACART in 2021/2022.

Issues referred to ACART

No issues were referred to ACART in 2021/2022.

Complaints received

ECART did not receive any complaints during 2021/2022.
